VOLUME XV

INDEX OF SUBJECTS AND AUTHORS

Only main topics are listed, and reference is given to the first page of each paper in which they are discussed

Acridine treatment cures two plasmids independently, 327
Actidione resistance and abnormal morphology in *Physarum polycephalum*, 35
Ahmad, Sayed, 19
Analysis of populations that have ceased to respond to selection in *Drosophila*, 285
Anderson, E. S., 327
Anderson, W. W., 123
Armitt, Susan, 7
Aspergillus nidulans, genetic analysis of a translocation, 317

Bainbridge, B. W., 317
Barthelmess, Ilse, 65
Blood group genotypes and mortality in chicken, 265
Bowman, Patricia, 261
Bridges, B. A., 147

Cattanach, B. M., 43, 183
Cell number in embryos from strains of mice selected for body size, 261
Chopra, V. L., 345
Chovnick, Arthur, 351
Chromosomes in metaphase plate of *Mesocricetus newtoni*, 1
Controlling elements on the X-chromosome in Mouse, 183

Davis, R. H., 99
Dee, Jennifer, 35
Dennis, Rachel, 147
Diffusion approximation for variance of the number of generations required for gene fixation, 251
DNA induced lethals in *Drosophila melanogaster*, 345
DNA replication and the male X-chromosome in X-autosome insertion in *Drosophila*, 301
Dobzhansky, Th., 123
Donch, John, 87
Drosophila, a chromosomal basis for dosage compensation, 301
  DNA feeding and directed mutagenesis, 345
  fine structure of *maroon-like* locus, 351
  lethal interactions of eye mutants, 29
  quantitative relations between variation in red eye pigment and other pteridines, 65
  selection for a threshold character, 285
Drosophila pseudoobscura, selection in experimental populations with different initial frequencies of chromosomal variants, 123

Escherichia coli, *exrA* locus represses prophage induction, 87
  functional analysis of host specificity mutants, 237
  independent curing of two plasmids, 327
  replica plating technique, 335
  requirement of DNA synthesis for T4 phage mutation, 147
Ewart, J. A. D., 209

Fine structure analysis of albino locus of *Neurospora crassa*, 139
Fine structure of *maroon-like* region in *Drosophila melanogaster*, 351
Finnerty, Victoria, 35
Fixation probability, of a neutral gene diffusion approximation for variance of time, 251
  not affected by population subdivision with conditions, 221
Fjeld, Asbjørn, 309

Gene conversion, observations on the hybrid DNA model, 55
Gene triplet, three closely linked genes with related functions in Mouse, 227
Genetic drift at heterotic loci produces reduction in fitness, 257
Gilmour, D. G., 265
Glover, S. W., 237
Green, Michael, 87
Greenberg, Joseph, 87
Grindle, M., 99
Grindley, June N., 327
Grindley, N. D. F., 327

Holliday, R., 157
Host specificity mutants, a functional analysis in *Escherichia coli*, 237
Hunt, David, 29
Hybrid DNA models and gene conversion, 55

Jenkins, G., 197

Kane, Caroline, 339
Kimura, Motoo, 131
Kirilova, Maria, 1
Kloos, W. E., 339

Lakhotia, S. C., 301
Land, J. B., 135
Land, R. B., 171
Large Milkweed Bug, new mutants of, 347
Latter, B. D. H., 285
Law, C. N., 197
Lawrence, Peter A., 347
Lethal interactions of *eye-gone* and *eyeless* mutants in *D. melanogaster*, 29

Mahajan, Suresh, K., 335
Maruyama, Takeo, 221
Mating types and hyphal fusion in wood rotting fungus, 19
McLaren, Anne, 261
Mesocricetus newtoni, chromosomes on metaphase plates of, 1
Micrococcus species, transformation in and between, 339
Miles, Philip, 19
Morphogenesis, predetermining effect by a chromosomal factor in green algae, 309
Morton, J. R., 265
Mouse, a gene triplet for patchy coat colour genes, 227
  a parental influence on X-autosome translocation variegation, 43
  controlling elements on X chromosome, location of, 183
  relationships between ovulation rate and body weight, 171
Munson, R. J., 147
Murray, Noreen, 109
Mutant, actidione resistance and abnormal morphology in *Physarum polycephalum*, 35
  Genes fixation probability in subdivided populations, 221
  Xan-b^{61}, nature of leucine requirements in Barley, 135
Mutants, *eye-gone* and *eyeless*, lethal interaction in *Drosophila*, 29
Mutation, Isolation and analysis of purine excreting mutants in yeast, 7
  requirement of DNA synthesis for, in T4 phage of *E. coli*, 147
  search for temperature sensitive DNA synthesis mutants in *Ustilago maydis*, 157

Narain, P., 251
Neurospora, variations in enzyme phenotypes and the underlying genotypes in wild strains, 99
Neurospora crassa fine structure of albino (*al*) region, 139
  recombination events spanning neighbour gene loci, 109
Norton, G., 135

Oncopeltus, new mutants, 347
Ovulation rate and body weight, genetic and phenotypic relationships in mouse, 171

Paszewski, Andrezj, 55
Pavlovsky, O., 123
Perez, J. N., 43, 183
Peripheral location of sex chromosomes during mitosis in Rumanian hamster, 1
Physarum polycephalum, actidione resistance and abnormal morphology, a mutant, 35
Polarized recombination in *Neurospora crassa*, 109
Polarized recombination, a further model, 55
Pollard, C. E., 183
Polymorphisms and mortality in chicken, 265
Poulter, Russel, 35

Raicu, Petre, 1
Random genetic drift time to fix a gene in finite population, 131
Recombination events spanning adjacent loci in *Neurospora crassa*, 109
Replica plating, a rapid and efficient technique, 335
Repression of prophage induction by *exrA* gene in *Escherichia coli*, 87
Riley, Ralph, 209
Robertson, Alan, 257
Robertson, F. W., 65
Rye, effect of individual chromosomes on lysine content of wheat, 209

Saccharomyces cerevisiae purine excreting mutants, 7
Schizophyllum commune mating types and hyphal fusion, 19
Searle, A. G., 227

Selection, for purine excreting mutants in *Saccharomyces cerevisae*, 7
in experimental populations of *Drosophila pseudoobscura*, 123
of body size effect on embryonic cell number in Mouse, 261
Subden, R. E., 139

Threlkeld, S. F. H., 139
Transformation in *Micrococcus* species, 339
Translocation, a genetic analysis of one in *Aspergillus nidulans*, 317
Truslove, G. M., 227

Ulva mutabilis a chromosomal factor affecting morphogenesis in, 309
Unrau, P., 157
Ustilago maydis, temperature sensitive DNA synthesis mutants, 157

U.V. induction of prophages repressed by *exrA* in *Escherichia coli*, 87

Variation of enzyme phenotypes and genotypes in wild strains of *Neurospora*, 99
Variation, quantitative relations between red eye pigment and other pteridines, 65
Vladescu, Barbu, 1

Watanabe, T., 123
Wheat, a genetic study of cold resistance, 197
correlation of increased lysine content to a specific chromosome, 209
Wood, T. H., 335
Woods, Robin, 7

X-autosome translocation, parental influence on such variegation in Mouse, 43

CONTENTS

No. 1 (August 1970)

McPHEE, C. P. and ROBERTSON, ALAN. The effect of suppressing crossing-over on the response to selection in *Drosophila melanogaster* *page* 1

EDWARDS, K. J. R. Developmental genetics of leaf formation in *Lolium*. 3. Inheritance of a developmental complex 17

THRELKELD, S. F. H. and STOLTZ, J. M. A genetic analysis of non-disjunction and mitotic recombination in *Neurospora crassa* 29

WOOD, R. J. The influence of the *y* locus on DDT resistance in the mosquito *Aedes aegypti* L. 37

TILNEY-BASSETT, R. A. E. The control of plastid inheritance in *Pelargonium* 49

NORMARK, STAFFAN. Genetics of a chain-forming mutant of *Eschericha coli*. Transduction and dominance of the *envA* gene mediating increased penetration to some antibacterial agents 63

AZEVEDO, J. L. and ROPER, J. A. Mitotic non-conformity in *Aspergillus*: successive and transposable genetic changes. 79

ASHESHOV, ELIZABETH H., WOODS, JENNIFER M. and DYKE, K. G. H. Penicillinase synthesis in *Staphylococcus aureus*: the effect of inducer and of the cellular location of the genetic determinants on the amount of enzyme formed 95

COOKE, MARYLYN, MEYNELL, ELINOR and LAWN, A. M. Mutant Hfr strains defective in transfer: restoration by F-like and I-like de-repressed R factors 101

WILLETTS, N. S. and FINNEGAN, D. J. Characteristics of *E. coli* K12 strains carrying both an F prime and an R factor 113

HARTLEY, JENNIFER M. Contrasting complementation patterns in *Aspergillus nidulans* 123

No. 2 (October 1970)

FLORES DA CUNHA, MIGUEL. Mitotic mapping of *Schizosaccharomyces pombe* 127

KIMURA, MOTOO and OHTA, TOMOKO. Genetic loads at a polymorphic locus which is maintained by frequency-dependent selection 145

Lewis, C. M. and Fincham, J. R. S. Genetics of nitrate reductase in *Ustilago maydis* page 151

Ohta, Tomoko and Kimura, Motoo. Development of associative overdominance through linkage disequilibrium in finite populations 165

Loutit, J. S. Investigation of the mating system of *Pseudomonas aeruginosa* strain I. VI. Mercury resistance associated with the sex factor (FP) 179

Baranowska, Hanna. Intragenic recombination pattern within the 164 locus of *Ascobolus immersus* in the presence of outside markers 185

Anderson, E. S. and Threlfall, E. J. Change of host range in a resistance factor 207

Pitton, J. S. and Anderson, E. S. The inhibitory action of transfer factors on lysis of *Escherichia coli* K12 by phages $\mu 2$ and $\phi 2$ 215

Woolley, D. M. A test of the functional significance of the quantity of mitochondria in the spermatozoa of mice 225

Puhalla, John E. Genetic studies of the *b* incompatability locus of *Ustilago maydis* 229

Chandra, H. Sharat. On *X* inactivation of *XO* embryos of mammals 233

Reeve, E. C. R. Transfer characteristic of two resistance determinants in a wild strain of *Klebsiella aerogenes* (V9A) 235

No. 3 (December 1970)

James, J. W. The founder effect and response to artificial selection 241

Mullen, R. J. and Hoornbeek, F. K. Genetic aspects of fertility and endocrine organ size in rats 251

Woolley, D. M. Selection for the length of the spermatozoan midpiece in the mouse 261

Pantelouris, E. M., Arnason, A. and Tesch, F. W. Genetic variation in the eel. II. Transferrins, haemoglobins and esterases in the eastern North Atlantic. Possible interpretations of phenotypic frequency differences 277

Houghton, J. A. A new class of slow-growing non-perithecial mutants of *Aspergillus nidulans* 285

Cattanach, B. M. Controlling elements in the mouse *X*-chromosome. III. Influence upon both parts of an *X* divided by rearrangement 293

Clutterbuck, A. J. A variegated position effect in *Aspergillus nidulans* 303

BIELIG, L. M. and DRISCOLL, C. J. Substitution of rye chromosome 5R for its three wheat homoeologues *page* 317

BENNETT, M. D. and REES, H. Induced variation in chiasma frequency in Rye in response to phosphate treatments 325

PARRY, ELIZABETH M. and COX, B. S. The tolerance of aneuploidy in yeast 333

CHAUHAN, N. S. Genetic evidence of an unorthodox chromosomal system in the lac insect *Kerria lacca* (Kerr) 341

MONTELEONE, PATRICIA L., CHERRY, JAMES D. and MONTELEONE, JAMES A. Chromosomal analysis of cultured skin fibroblasts from patients with infectious mononucleosis 345

SMITH, H. R., GRINDLEY, JUNE N., GRINDLEY, N. D. F. and ANDERSON, E. S. Derepression of F-*lac* in *Salmonella typhimurium* by a determinant for kanamycin resistance 349

CANHAM, RAYMOND P., BIRDSALL, D. ALAN and CAMERON, DAVID G. Disturbed segregation at the transferrin locus of the deer mouse 355

ROBERTS, LILIAN M. and REEVE, E. C. R. Two mutations giving low-level streptomycin resistance in *Escherichia coli* K12 359

VOLUME XVI

INDEX OF SUBJECTS AND AUTHORS

Only main topics are listed, and reference is given to the first page of each paper in which they are discussed

Aedes aegypti, DDT resistance, 37
Anderson, E. S., 207, 215, 349
Aneuploidy tolerance in yeast, 333
Anguilla anguilla, liver esterases and transferrins, 277
Antibacterial agents, increased penetration in *Escherichia coli*, 63
Arnason, A., 277
Ascobolus immersus, intragenic recombination pattern, 185
  chromatid interference, 200
  conversion frequencies, 196
Asheshov, Elizabeth H., 95
Aspergillus nidulans, 'bristle' locus, 303
  deteriorated variants, 81
  intracistronic complementation, 123
  mitotic nonconformity, 79
  variegated position effect, 303
Atlantic eel problem, 277
Azevedo, J. L., 79

Baranowska, Hanna, 185
Bennett, M. D., 325
Bielig, L. M., 317
Birdsall, D., Alan, 355

Cameron, David G., 355
Canham, Raymond P., 355
Cattanach, B. M., 293
Chandra, Sharat H., 233
Chauhan, N. S., 341
Cherry, James D., 345
Chiasma frequency in rye, 325
Chromatid interference in *Ascobolus immersus*, 200
Chromosomal analysis of cultured fibroblasts, 345
Chromosome map of *Schizosaccharomyces pombe*, 140
Clutterbuck, A. J., 303
Controlling elements in mouse *X* chromosome, 293
Conversion frequencies in *Ascobolus immersus*, 196
Cooke, Marylyn, 101
Cox, B. S., 333

DDT resistance in *Aedes aegypti*, 37
Deer mouse, disturbed segregation at transferrin locus, 355
Defective transfer in *Escherichia coli* K 12, 101
Derepression of F-*lac* in *Salmonella typhimurium* by kanamycin resistance determinant, 349
Developmental genetics, leaves of *Lolium perenne*, 17
Driscoll, C. J., 317
Drosophila melanogaster, efficiency of crossover suppression, 6
  effective population size, 12, 13
  selection for sternopleural bristles, 1
  viability in selected lines, 8
Dyke, K. G. H., 95

Edwards, K. J. R., 17
Eel – liver esterases and transferrins, 277
Electron microscopy of mouse sperm, 265
Endocrine organ size and fertility in rats, 251
Escherichia coli K 12, carrying both F-prime and R factor, 113
  derepressed F-like and I-like R factors, 101
  donor ability, 116
  envA locus, 75
  Hfr strains defective in transfer, 101
  low-level streptomycin resistance, 359
  surface exclusion in mating, 120

Fertility and endocrine organ size in rats, 251
Fibroblast culture and chromosome analysis, 345
Fincham, J. R. S., 151
Finite populations, associative overdominance, 165
  linkage disequilibrium, 165
Finnegan, D. J., 113
Flores Da Cunha, Miguel, 127
Founder effect, 241
F-*lac* repression in *Salmonella typhimurium*, 349
F-prime factors in *Escherichia coli K 12*, 113

Genetic loads at a polymorphic locus, 145

XUM

Heritability of midpiece length in mouse sperm, 266
Homeologues of wheat substituting for 5R in rye, 317
Hoornbeek, F. K., 251
Host range – resistance factor, 207
Houghton, J. A., 285

Inactivation of *X* in *XO* embryos of mammals, 233
Incompatibility Locus of *Ustilago maydis*, 229
Induction of penicillinase synthesis in *Staphylococcus aureus*, 98
Induction of variation in chiasma frequency by phosphate in rye, 325
Inhibition of lysis by transfer factors in *Escherichia coli* K12, 185
Intragenic recombination in *Ascobolus immersus*, 185

James, J. W., 241

Kanamycin resistance determinant derepresses F-*lac* in *Salmonella typhimurium*, 349
Kerria lacca (Kerr) unorthodox chromosomal system in *lac* insect, 341
Kimura, Motoo, 145, 165

Lawn, A. M., 101
Leaf development in *Lolium perenne*, 17
Lewis, C. M., 151
Linkage disequilibrium, 165
  map in *Schizosaccharomyces pombe*, 128
Lolium perenne, leaf development, 17
Loutit, J. S., 179

Mating system of *Pseudomonas aeruginosa*, 179
McPhee, C. P., 1
Meynell, Elinor, 101
Mitochondria in mouse sperm, 225
Mitotic mapping in *Schizosaccharomyces pombe*, 127
  nonconformity in *Aspergillus nidulans*, 79
Mononucleosis, chromosome analysis, 345
Monteleone, James, A., 345
Monteleone, Patricia, L., 345
Mosquito, DDT resistance, 37
Mouse, controlling elements in *X* chromosome, 293
  selection for sperm midpiece length, 261
Mullen, R. J., 251

Mutants
  Aspergillus nidulans, 'bristle' locus, 303; slow growing, 285
  Escherichia coli K12, chain forming, 63; Hfr strains, 101; low-level streptomycin resistance, 359
  Ustilago maydis, nitrate mutants, 154

Neurospora crassa, non-disjunction, 29
Nitrate reductase in *Ustilago maydis*, 151
Non-disjunction in *Neurospora crassa*, 33
Non-perithecial mutants of *Aspergillus nidulans*, 285
Normark, Staffan, 63

Ohta, Tomoko, 145, 165
Overdominance, associative, 165

Pantelouris, E. M., 277
Parry, Elizabeth M., 333
Pelargonium, control of plastid inheritance, 49
Penicillinase synthesis in *Staphylococcus aureus*, 95
Pitton, J. S., 215
Plastid inheritance in *Pelargonium*, 49
Polymorphic locus, genetic loads, 145
Position effect in *Aspergillus nidulans*, 303
